

A NOTE ON THE COVER ART

TYSHAUN TYSON

I usually work with acrylic paints and sometimes dabble into other mediums. When creating this I used digital media. I always find my most unique and creative moments during this time of the year. It's something about the celebration of my African Heritage that excites me and sparks my curiosity in ways I can't predict. I went into this piece unsure of the desired outcome, but seemed to naturally arrive at Dr. Martin Luther King Jr. as my subject. Dr King is the ultimate example of peace so it seemed natural to go this route. I am very happy with how it turned out and honored to have it represented with your project.
